Dipl.-Kfm. Rudolf Ostermann 02922 - 97 30 12

Plant Head (m/f/d) Furniture Manufacturing UAE

The large Middle East based group with a rapid development of their numerous real estate and building projects currently sets up a new, sizeable factory for case-goods as well as seating furniture. To organize and operate this state-of-the-art production facility from the very beginning – projected through German engineering experts – we seek the highly qualified manager personality from the furniture branch, well-versed with cabinet, kitchen or upholstery manufacturing. With professional expertise, intercultural leadership competence and excellent communication skills – preferably experienced in large-scale German quality productions – interested applicants are going to find an exciting challenge. Please do not hesitate to contact the consultant, who will be glad to report upon details of this second appointment for the company.
